

GEOBINGO™

The Goal of GeoBingo is to be the first player to get 5 of the GeoBingo chips in a row on your GeoBingo Board(s).

Each player chooses 1 or more of the 8 GeoBingo Boards. Arrange the 50 Country Cards into a deck in the middle of the players. The youngest player chooses the top Country Card in the deck and shows it to everyone. Each player then puts a chip on top of that country on their Bingo Board(s). Play continues with the player on the left then drawing the next country card from the deck. Continue until one player has 5 chips in a row; then s/he shouts "Geo-Bingo!" and wins the game.
